HARBOURLINE PROPERTY TRUST - SUSTAINABILITY REPORT FY2025

[Fictional sample document created for the Equilibria hackathon demo. Not real company data.]

1. ABOUT THIS REPORT

This report covers the financial year 1 January to 31 December 2025. It is prepared in accordance with the GRI Standards 2021 and IFRS S2 Climate-related Disclosures (ISSB), which replaces our previous TCFD reporting. We participated in GRESB for the first time and received a 4-star rating.
Reporting boundary: 24 assets (11 offices, 5 retail malls, 2 business parks and 6 logistics warehouses acquired in 2023) in Singapore, Malaysia and Australia, totalling 1.86 million m2 GFA.
Base year: restated to 2022 to reflect portfolio changes.
Scope 2 emissions are now reported on a market-based basis, in line with industry practice. Location-based figures are available in Appendix C.
External assurance: limited assurance over Scope 1, Scope 2 and selected Scope 3 categories.

2. CEO'S MESSAGE

We are proud to report that our corporate offices are now carbon neutral, achieved through the purchase of verified carbon credits. Our carbon intensity has fallen by 30% since 2021, and we have set a science-aligned 2030 target.

3. ENVIRONMENTAL PERFORMANCE (FY2025)

Scope 1 emissions: 3,880 tCO2e
Scope 2 emissions (market-based): 88,950 tCO2e
Total Scope 1 + 2 emissions (market-based): 92,830 tCO2e
Carbon intensity (Scope 1+2, market-based): 49.9 kgCO2e/m2 GFA
Scope 3 emissions (categories 1, 3 and 13 - downstream leased assets): 412,600 tCO2e
Total energy consumption: 271.8 GWh
Energy use intensity: 146 kWh/m2
Renewable electricity: 18% of electricity consumption (14% renewable energy certificates, 4% on-site solar)
Water withdrawal: 2.31 million m3
Water intensity: 1.24 m3/m2
Waste generated: 11,860 tonnes
Waste diversion rate: 29%
Green-certified portfolio (Green Mark Gold Plus or above): 74% of GFA

Appendix C - Scope 2 (location-based): 104,300 tCO2e

4. TARGETS

- Net zero Scope 1 and 2 emissions by 2050, aligned with Singapore's national net zero target.
- Reduce Scope 1+2 carbon intensity by 42% by 2030 against the 2022 baseline (science-aligned; SBTi validation pending).
- 100% of new leases to include green lease clauses by 2027.
- WELL Health-Safety rating for all office assets by 2027.

5. PEOPLE, HEALTH AND WELLBEING

Employees: 538
Average training hours per employee: 31
Lost-time injury rate (LTIR, per 1 million hours worked): 0.55
Fatalities: 1 contractor fatality at a development site in Malaysia. An investigation has been completed and corrective actions implemented.
Occupant satisfaction survey (expanded to include indoor comfort and air quality questions): 81% satisfied

WELL Health-Safety rating achieved at 9 assets.
Real-time indoor air quality (CO2, PM2.5, temperature, humidity) monitoring installed in 15 assets.
Heat-stress protocol introduced for workers at logistics warehouses.

6. GOVERNANCE

The Board ESG Committee oversees sustainability. 10% of executive short-term incentives are linked to ESG KPIs (carbon intensity, green certification and safety).

7. CLIMATE RISK (IFRS S2)

Scenario analysis under 1.5C and 3C pathways completed. Physical risk assessment identified 4 assets with high flood exposure; adaptation capex of S$18 million is planned to 2030. Transition risk: 7 assets at risk of stranding under CRREM 1.5C pathways before 2030.
